## CAREER OBJECTIVE

---

A results-driven professional with a strong foundation in accounting, SAP Finance support, Oracle systems, and full-stack development. I combine financial process knowledge with technical capabilities to support digital transformation, streamline ERP operations, and build automation solutions that improve efficiency and reduce manual work.

With hands-on experience in SAP FI support, Oracle system administration, accounting operations, and modern software development technologies, I am focused on solving business challenges, improving system reliability, and delivering practical technology-driven solutions.

## WORK EXPERIENCE

---

### Ministry of Municipal and Rural Affairs

Jan / 2025 – Present

*Digital Transformation Agency – Specialist (SAP Finance Support).*

- Provide functional support for SAP Finance FI processes, including issue analysis, troubleshooting, and user assistance.
- Support business users in resolving finance-related SAP incidents and ensuring continuity of financial operations.
- Coordinate with business and technical teams to analyze requirements, escalate issues, and follow up on enhancements.
- Monitor financial transactions, system behavior, and data accuracy to support reliable SAP operations.
- Document support procedures, user guides, recurring issues, and process improvements to enhance system efficiency.
- Assist in improving ERP workflows by connecting financial process knowledge with system functionality

### Almanara Trading co

Jul / 2024 – Nov / 2024

*Oracle System Support Coordinator.*

- Provided technical and functional support for Oracle system users across daily business operations.
- Managed user accounts, roles, permissions, and access requests within the Oracle system.
- Troubleshot system issues and coordinated with IT teams to resolve complex technical problems.
- Documented support activities, system changes, and recurring issues to improve support quality.
- Trained users on system functionality, best practices, and proper process execution.

### Mayyar United Catering co

Dec / 2021 – Dec / 2022

*General Accountant.*

- Communicated and Reconciled with over 150 suppliers to ensure accurate account entries.
- Identified and corrected over 50,000 SAR in wrong entries
- Handled daily invoice entries and issued timely payments to suppliers, maintaining strong supplier relationships.
- Worked directly with suppliers at the company warehouse, ensuring efficient material handling.
- Executed a variety of financial and warehouse operations leveraging the Oracle ERP system.
- Prepared daily reports detailing received and dispatched materials, providing transparency in warehouse operations.

## EDUCATION

---

Imam Mohammad Ibn Saud University.  
*Bachelor's degree in accounting.*

2018 – 2022

## PROFESSIONAL DEVELOPMENT

---

### SAP Young Professionals Program

Jul / 2024 – Sep / 2024

*SAP Digital Skills Center.*

- Acquired SAP S/4HANA Cloud and RISE with SAP knowledge through a 2-month intensive program.
- Gained hands-on experience and certifications to become an SAP Associate Consultant.
- Developed soft skills essential for SAP-related roles and engaged in workshops training.

### C# & React.js Full-Stack Development Bootcamp.

Feb / 2024 – May / 2024

*Saudi Digital Academy.*

- Participating in a 14-week intensive bootcamp focused on C# and web ReactJS.
- Engaging in 520 hours of training, including practical exercises and real-world project work.
- Gaining proficiency in C# fundamentals and web development, preparing for roles such as Full-Stack Developer, Web Developer, and more.
